VOLTAGES CODES:

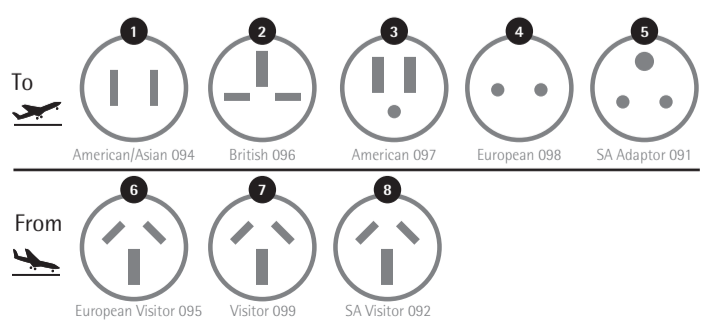

- Countries with 100-120V (110V) = **A**
- Countries with 200-250V (240V) = **B**
- Countries with both 110V + 240V = **C**

IMPORTANT: Voltages + socket configurations vary within a country. This information may not be accurate in every instance.

Every effort has been made to ensure that the information enclosed in this guide to the best of our knowledge is accurate. We cannot however be made responsible for any errors or omissions.

Voltage
Please note adaptors do not convert voltage. Care should be taken to ensure that electrical appliances have a dual voltage capability or a voltage converter is used where necessary.

N/A - Not Available
AU - Uses an Australian plug
